VOLUME CONTENTS

Vol. 40 No. 1 January 1996

KLAUS RITZBERGER / On Games under Expected Utility with Rank Dependent Probabilities 1–27

SANJEEV GOYAL and MAARTEN JANSSEN / Can We Rationally Learn to Coordinate? 29–49

ALEXANDRA RAUCHS and MARC WILLINGER / Experimental Evidence on the Irreversibility Effect 51–78

PETER C. FISHBURN and IRVING H. LA VALLE / Signed Orders in Linear and Nonlinear Utility Theory 79–101

Vol. 40 No. 2 March 1996

ROBERT VAN HEUMEN, BEZALEL PELEG, STEF TIJS, and PETER BORM / Axiomatic Characterizations of Solutions for Bayesian Games 103–129

EYAL WINTER / Mechanism Robustness in Multilateral Bargaining 131–147

DIRK HELBING / A Stochastic Behavioral Model and a 'Microscopic' Foundation of Evolutionary Game Theory 149–179

DAVID MAKINSON / Combinatorial versus Decision-Theoretic Components of Impossibility Theorems 181–190

CHRISTIAN P. ROBERT / Intrinsic Losses 191–214

VOLUME CONTENTS

Vol. 40 No. 3 May 1996

BONNIE K. RAY and DAVID H. KRANTZ / Foundations of the Theory of Evidence: Resolving Conflict among Schemata 215–234

TIMOTHY VAN ZANDT / Hidden Information Acquisition and Static Choice 235–247

JAMES DREIER / Rational Preference: Decision Theory as a Theory of Practical Rationality 249–276

F. KRAMARZ / Dynamic Focal Points in *N*-Person Coordination Games 277–313
